The oil inlet nipple O-ring of the Oil Filter Adapter (OFA) component varies depending on the model year of the vehicle. Please remove the included red rubber cap from your oil filter housing and install the appropriate included gasket depending on the year of your vehicle.

2022 and Newer Applications:

Install the **Black** O-ring. Please follow service procedure to ensure proper installation of the OFA.

2014-2021 Applications:

Install the **Red** O-ring, which has a reduced diameter. Please adhere to the servicing process for correct OFA installation.
